SKILLS

- Languages:** Java, JavaScript, C++, Python
- Frontend:** HTML and CSS, React.js, JavaScript, Tailwind CSS
- Backend:** Java, Spring Boot, Spring Security, Spring Data JPA, REST APIs, Microservices, MVC Architecture
- Database:** MySQL, MongoDB
- Core Concepts:** Data Structures & Algorithms, OOPs, DBMS, SDLC, Exception Handling
- Tools/Platforms:** Linux, VS CODE, GitHub, IntelliJ IDEA, Postman

WORK EXPERIENCE

HCL TECH

Dec 25 – Mar 26

Java Full Stack Development

- Successfully completed intensive training in java full stack development, focusing on building scalable and secure web applications.
- Developed multiple full stack applications using Spring Boot, React.js and RESTful APIs improving application efficiency and responsiveness.
- Implemented backend services using Spring Boot and implemented RESTful APIs with proper exception handling.
- Implemented authentication (JWT), API integration, debugging and microservices architecture fundamentals.
- Tech stack: Java, Spring Boot, Spring Security, JPA/hibernate, MySQL, React, HTML, CSS, JavaScript, Git, Postman

VYBE LABS PRIVATE LIMITED (Gurugram, Haryana)

July 24 – Dec 25

Software Engineer / Full Stack Development (Java)

- Designed scalable full stack web applications using Java, Spring Boot and React.js following MVC architecture.
- Designed and implemented REST APIs for seamless client-server communication and efficient data exchange.
- Built robust backend services using Spring Boot, Spring Data JPA (Hibernate) and MySQL ensuring optimized database performance.
- Gained exposure to microservices, API integration and exception handling to enhance application reliability.
- Tech stack: Java, Spring Boot, JPA/Hibernate, Git, Postman, React.js, JavaScript, Spring Security, MySQL, HTML, CSS

PROJECTS

Pharmacy Booking Application

Mar 26 - Mar 26

Developed a microservices based Pharmacy ordering platform with authentication, medicine catalog, prescription workflow, order management and role-based dashboards.

- Features:** User authentication auth-service, Registration/login, JWT issuing, medicine service, Order-Service, Eureka-Service discovery, Gateway-API, Gateway
- Learning Outcome:** Authentication & Security (JWT), Microservices Architecture understanding, API Gateway & Routing, Database Design & Service Separation, REST API Development
- Tech stack:** Java 21, Spring Boot, Spring Boot Security, Spring Data JPA, REST APIs, MySQL, React

The Coffee Shop Barista Dilemma

Feb 26 – Feb 26

Designed a smart order queuing and scheduling system design to optimize customer wait time, ensure fairness and balance workload among baristas during peak hours in a café environment.

- Features:** Learned Backend-frontend integration for dynamic web applications.
- Learning Outcome:** Micro- level queue optimization, Real- world system design thinking, Scheduling algorithms, Priority queues, Simulation techniques
- Tech stack:** Java, Spring Boot, HTML, CSS, JavaScript, Docker, Postman (API Testing)

CERTIFICATES

- Cloud Computing | NPTEL | Proctored | Elite Certification November 2024
- Data Structure and Algorithm | Self Placed | Geeks for Geeks October 2024
- Java Programing Language | Udemy September 2024

ACHIEVEMENTS

- One among Dean's top 10% student at University**
For good academic performance and extra- curriculum activity in university.
- Secured Silver Medal in District Wushu Champion Ship**
Played and got Silver Medal in Sanshou organized by Bihar Wushu Organization.

EDUCATION

- Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.5** August 2022 - Present
- Anand Prep Public School** Muzaffarpur, Bihar
Intermediate; **Percentage: 84%** April 2020 - March 2022
- Prabhat Tara School** Muzaffarpur, Bihar
Matriculation; **Percentage: 87%** April 2019 - March 2020
